Chp :- Demand and Supply

Topic :- changes in quantity demand and
changes in demand

alpha

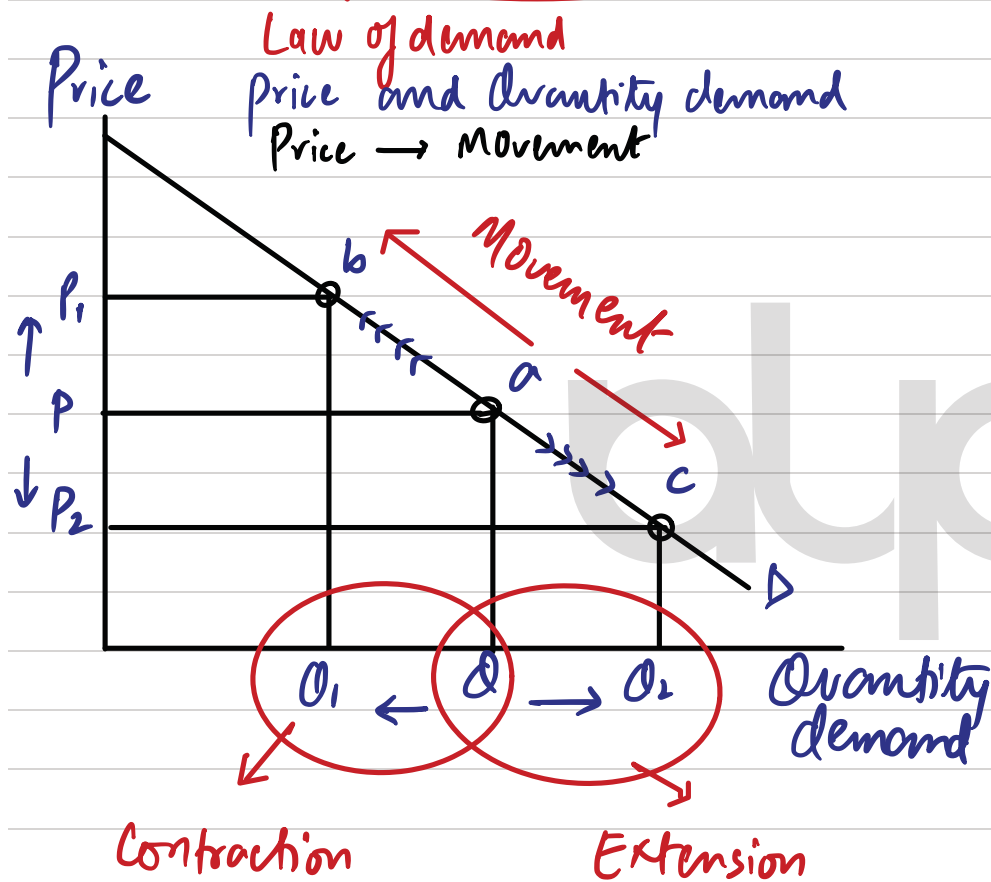

Zarak
Mushtaq

A stylized handwritten signature in black ink, featuring a large loop and a sharp upward stroke.

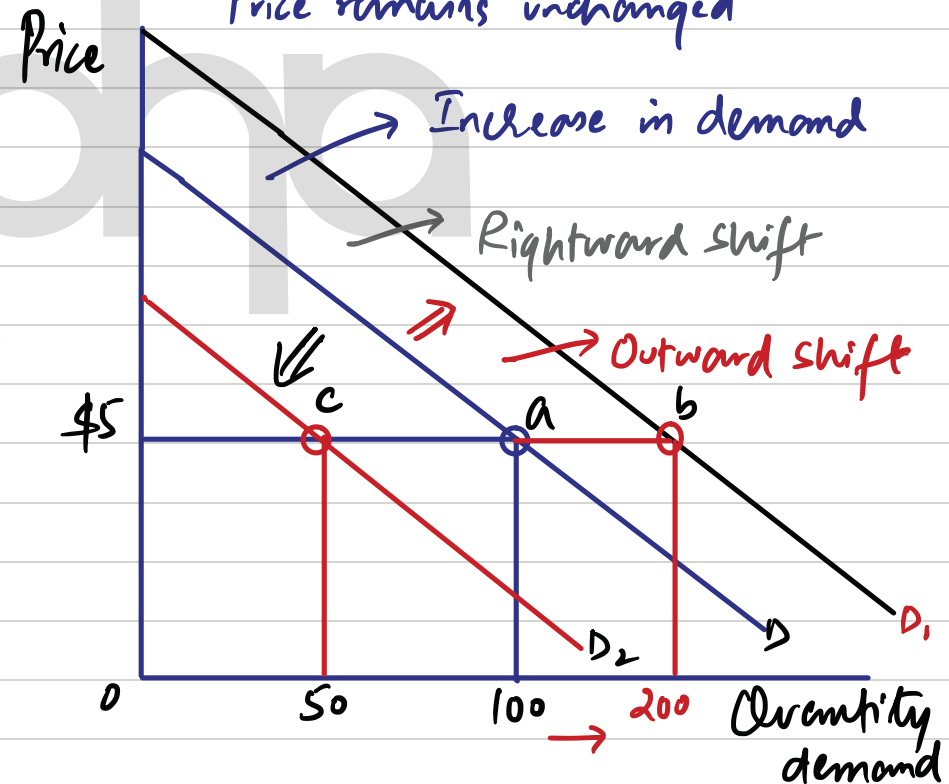

Changes in quantity demand

vs

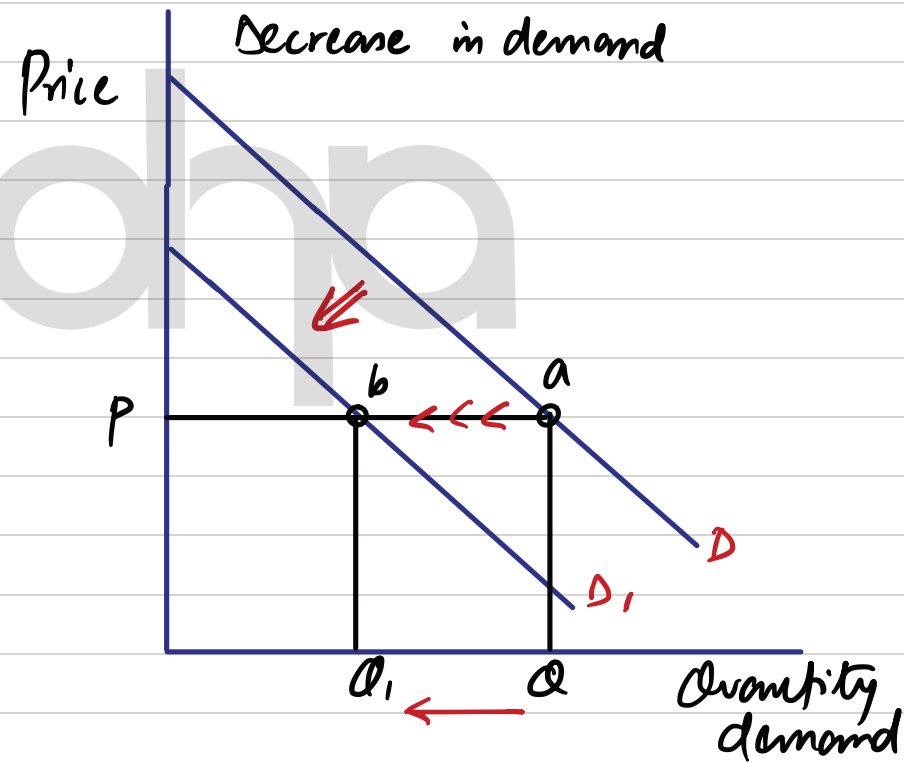

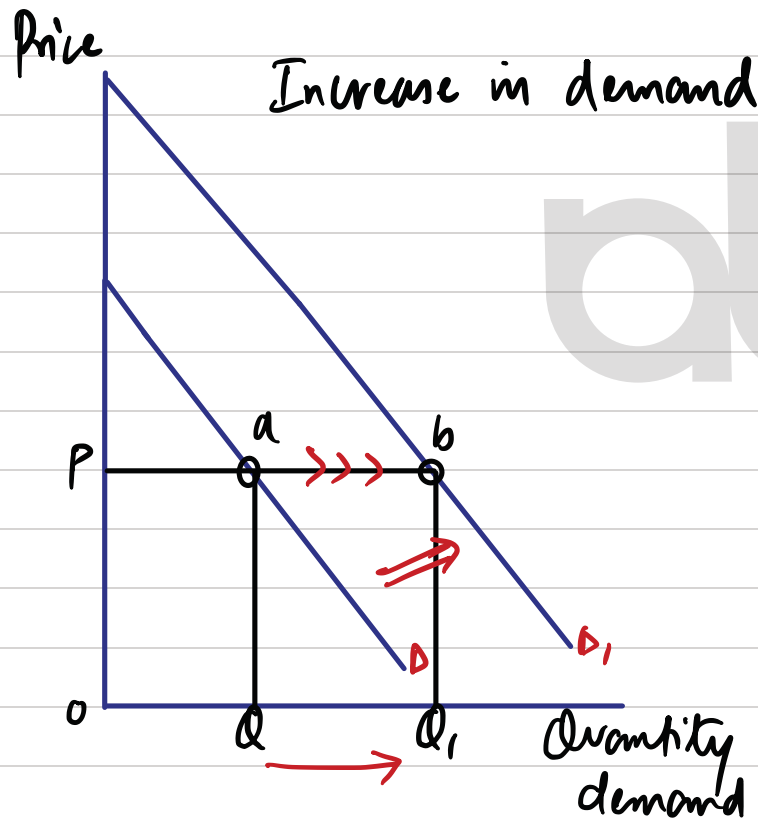

Changes in demand → other factors

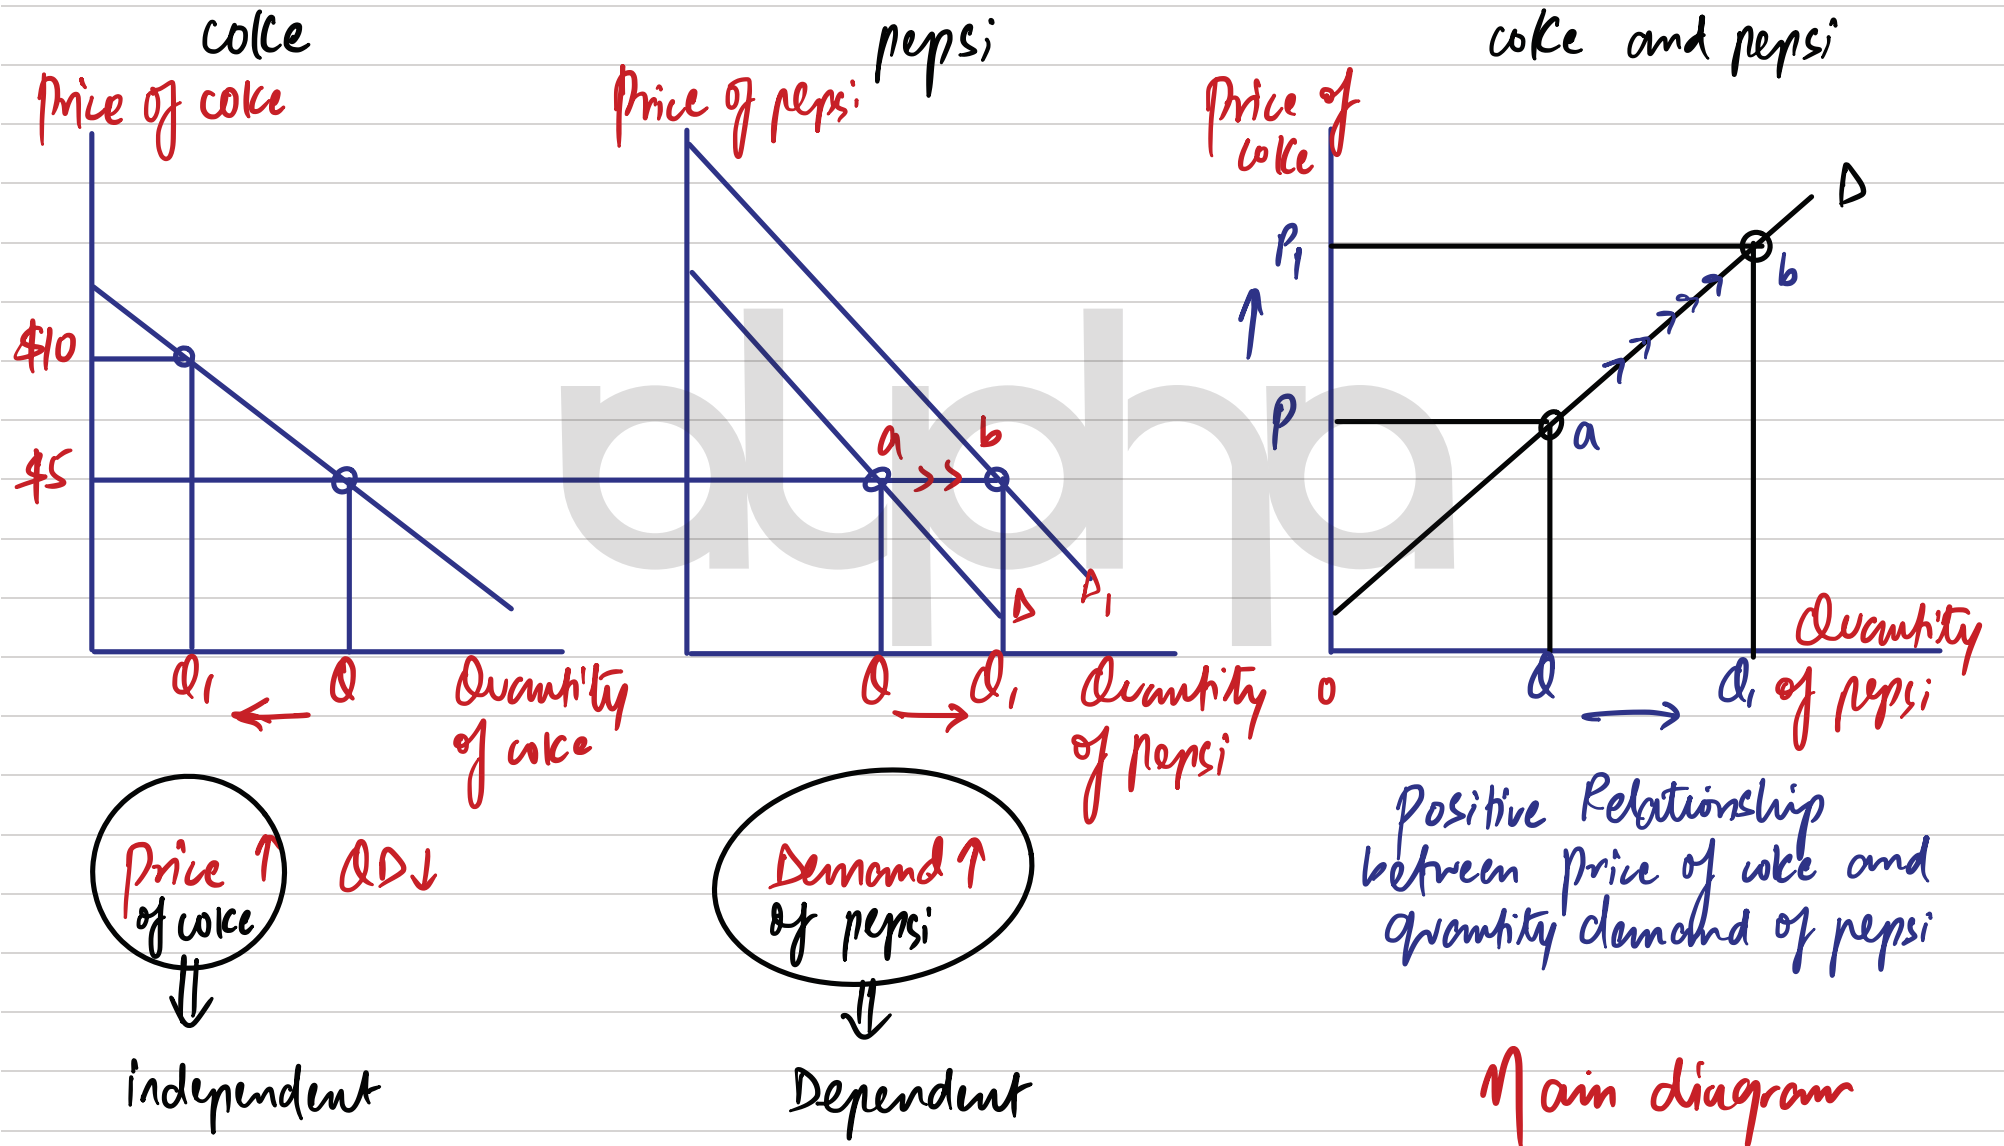

e.g. Income ↑ (Zm's Income ↑)
Bounty chocolate price was \$5
Earlier → 100 units bought
Income ↑, Demand ↑
200 units bought at \$5
Price remains unchanged

Note:- Changes in quantity demand is due to changes in price. An increase in price contracts quantity demand and a decrease in price extends quantity demand. Changes in demand is due to other factors, causing shift in demand, that can be rightward or leftward.

Solving the diagram — Concept of substitutes

Questions (H.W #3)

Q1 Using diagrams, explain the difference between changes in quantity demand and changes in demand? 6 ¹⁰ (Movement vs Shift)

Q2 Using a diagram, show the effect of increase in demand? 2

Q3 Using a diagram, show the effect of decrease in demand? 2

(only diagram required)
